

Create a Score Report

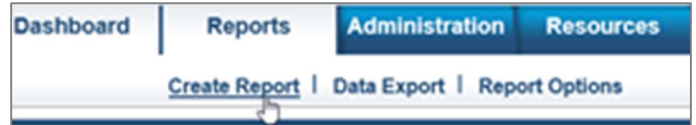

Riverside Score™ Quick Guide

Riverside Score allows you to create and run Score reports for examinees with committed test records.

IMPORTANT: Report options depend on the products available to you as well as the selections you make as you create your report. For more information, see [online help](#).

To create a Score report:

- 1 In the header, move the pointer over the **Reports** tab and click **Create Report**. The **Create Report** page appears with two fields, **Product** and **Report Type**.
- 2 Select your product from the **Product** menu.
- 3 From the **Report Type** menu, select **Score Report**. The page reloads with filters relevant to the **Score Report**.

Note:

- Fields with an asterisk (*) are required.
- For fields without arrows: Click inside fields to view available values and make your selections. To close the field, click the field again or scroll down and click **Close**.

Create Report

Select report filters from the menu below

Select a Product

Report Type *

Select Report Type

- 4 Click in the **Examinee Selection** field and do one of the following to locate and select the examinee.
 - Type the first few letters of an examinee's first or last name and press **Enter** on your keyboard to view matches.
 - Click the arrows beside the caseload folders to view examinees with committed test record data.

Click the examinee's name to select it.

- 5 Click in the **Test Record** field to view and select the committed test records for the examinee that you want included in the report.
- 6 (*WJIV, Bateria IV, and WMLS-R*) From the **Normative Basis** field, type **Age** or a grade level.
- 7 (*Optional*) Make selections for the following optional fields.

- In the **Score Selection Template** menu, select:
 - **Default** to report default scores only.
 - **New Score Selection Template** to link to the **Add Template** field and specify scores to be included in a new template.
 - **Saved templates** to run a report using a previously saved template.
- (*WJ IV and Bateria IV*) For **Options**, select specific scores to be included.
- (*ECAD only*) For **Scores for Assessment of Early Development Delays**, specify delay measurements to be calculated for the report.
- For **Variations** and **Comparisons**, select additional score-related information for the report.

Riverside Score™ Quick Guide

- 8 In the **Grouping Options** menu, select an option to specify how tests are listed in the report.
- 9 In the **Output Format** menu, select the report format (**PDF**, **Web Page**, or **Word**).
- 10 When all filters are selected, click one of the following buttons at the bottom of the page to complete the process of creating the report:
 - **Save to My Reports**, type a name for the report and click **Save**. The report is available on your Dashboard in the **My Saved Reports** box for a period of 14 days.
 - **Run Report** to generate and view the report.
 - **PDF** and **Word** reports open in their respective applications.
 - **Web Page** reports open in the Reports tab.
